

# Love Me

Tracie Spencer

Didn't know if I could make it  
I tried to hold out as long as I could  
I have to tell you how I feel  
Cause I don't want to be misunderstood

Bridge 1:

It's time that we got together  
And prove what a love should be  
Our love could be like a dream  
We could be a fantasy if only you will just

Chorus:

Love me, love me, I'll be there for you  
Love me, love me, it will be a dream come true  
Love me, love me, hapiness is overdue  
Love me, love me, the way that I love you

I know you've been through so many changes  
With other loves that weren't there for you  
If you let me in your life I'll do all that I can  
To make this love paradise for two

Bridge II:

Someone to share life forever  
That's what I'll be for you  
We'll leave the whole world behind  
This would be reality if only you would just
