

Love To You

Tracie Spencer

I don't care what it takes
I don't care what you do
Just as long as I get the chance to
Make love to you
I don't care what it takes
I don't care what you do
Just as long as I get the chance to
Make love to you

So cold; lonely night
I need somethin' special inside
I'm ready to control
My desire won't let go

Touch me, It's alright
Let me bring you heaven tonight
And love me till you cry
Screams of passion; call my name

Even though the look in your eyes
Just turns me on, babe
My shining star
My dream come true
Baby, just come to me
And I'll do everything
Make it go on and on again
I want to love ya, baby
Te quiero nocho este noche
Just touch me
