

## Brain Crack

Tracy Bonham

Have you ever heard the sound  
Of you head in the ground  
And you're afraid to say  
And it won't go away?  
That's the sound of your brain cracking  
That's the sound of your brain cracking  
That's the sound of your brain cracking  
That's the sound of your brain cracking  
Have you ever heard the sound  
Of you head on the ground  
And you're afraid to say  
And it won't go away?  
That's the sound of your brain cracking  
That's the sound of your brain cracking  
That's the sound of your brain cracking  
That's the sound of your brain cracking
