Back to Texas

I left Houston 'round two a.m. In the middle of a pourin' rain I drove all night to Oklahoma Scared I'd never see you again I found you in Tulsa Hopin' you'd agree to come on home with me

I've been feelin' like one lone star Lost in the midnight blue Darlin', you're still deep in my heart And there's nothin' I won't do But I can't get back to Texas without you

I never wanted to see the end Of those Amarillo summer nights I'd give anything to hold you again 'Neath the Austin city lights Say you'll come back, baby We can find our dreams down in Abilene

I've been feelin' like one lone star Lost in the midnight blue Darlin', you're still deep in my heart And there's nothin' I won't do But I can't go back to Texas without you

I've been feelin' like one lone star Lost in the midnight blue Darlin', you're still deep in my heart And there's nothin' I won't do But I can't go back to Texas But I can't go back to Texas without you

I can't go back to Texas I can't go back to Texas Without you

Tracy Byrd
