

Needed

Tracy Byrd

You say you hate to bother me
Baby, I'll be right there
You're having one of those days
I can see right through this phone

Nothing's out of my way
You can't ask too much
I'm just thankful to be
The one you lean on

So, lay your troubles on me
That's what I live for
Makes me feel so complete
It's the reason I was born

Baby, what makes love, love
And gives my life meaning
Is to be needed, needed

I know this ain't easy
Sometimes, we try so hard
That we just end up overworked
And overwhelmed

That's why I've got this shoulder
And two arms open wide
You won't ever have to
Do it by yourself

Lay your troubles on me
That's what I live for
Makes me feel so complete
It's the reason I was born

Baby, what makes love, love
And gives my life meaning
Is to be needed, needed

Baby, what makes love, love
And gives my life meaning
Is to be needed, needed

I wanna be needed, needed
