

Proud of Me

Tracy Byrd

As the sun's coming up
She puts coffee on
Love in a cup
She makes it strong
She kisses my cheek
And I'm on my way

With her on my mind
I work hard all day
Just trying to keep
Her proud of me

It's hard to believe
A girl like her fell
For someone with grease
Under his fingernails
Like a tattoo
Soap can't wash off

It's easy to see
I'm nobody's boss
I'm just trying to keep
Her proud of me

I don't know what she sees
In me that she loves
Oh, but I'm gonna do my best
To see she always does

I don't know what she sees
In me that she loves
Oh, but I'm gonna do my best
To see she always does

Oh, even though
I can't give her much
But I think that she knows
I'm just trying to keep
Her proud of me

As the sun's coming up
She puts coffee on
