

## Proud of Me

Tracy Byrd

As the sun's coming up  
She puts coffee on  
Love in a cup  
She makes it strong  
She kisses my cheek  
And I'm on my way

With her on my mind  
I work hard all day  
Just trying to keep  
Her proud of me

It's hard to believe  
A girl like her fell  
For someone with grease  
Under his fingernails  
Like a tattoo  
Soap can't wash off

It's easy to see  
I'm nobody's boss  
I'm just trying to keep  
Her proud of me

I don't know what she sees  
In me that she loves  
Oh, but I'm gonna do my best  
To see she always does

I don't know what she sees  
In me that she loves  
Oh, but I'm gonna do my best  
To see she always does

Oh, even though  
I can't give her much  
But I think that she knows  
I'm just trying to keep  
Her proud of me

As the sun's coming up  
She puts coffee on
