

# Why

Tracy Byrd

Where in a barroom  
When last night  
What was I doin'  
I was holdin' someone tight  
Who oh just someone  
Who didn't mean a thing  
How well I just slipped off my wedding ring

Why I don't know  
I didn't mean to hurt you  
I don't wanna see you go  
Girl you know me well enough  
To know that I don't lie  
And I can answer every question but why

Where at her place  
When around closing time  
What were we drinking  
Tequila, salt and lime  
Who but a fool like me  
Could hurt someone like you  
How can you forgive me  
For all I've put you through

Why I don't know  
I didn't mean to hurt you  
I don't wanna see you go  
Girl you know me well enough  
To know that I don't lie  
And I can answer every question but why

Yeah I can answer every question but why
