## **Bridges**

## **Tracy Chapman**

All the bridges that you burn Come back one day to haunt you One day you'll find you're walking Lonely Baby I Never meant to hurt you Sometimes the best intentions Still don't make things right But all my ghosts they find me Like my past they think they own me In dreams and dark corners they surround me Till I cry I cry Let me take this time to set the record straight Let me take this time to take it all back Let me take this time to tell you how I felt Let me take this time to try and make it right But you can Walk away Be all alone Spend all your time Thinking about the way things used to be If love feels right You work it out You don't give it up Baby Anybody tell you that Anybody tell you that Anybody tell you that You should take some time maybe sleep on it tonight You should take some time baby heed the words I said You should take some time think about your life You should take some time before you throw it all away I ain't got the time To sit here and wait around But I got the time If you say I'm what you want
