## **Over in Love**

## **Tracy Chapman**

Cold wind blows
Shivers loose
Hard rain
To my skin soaked through
So over in love with you
I don't even care

Sky turns grey
Black and blue
Fall on me
I can't be moved

So over in love with you I don't even care

Hot sun shines And lays bare Shadows cross cut Heavy air

So over in love with you I don't even care

The tide that washes in and out Reveals a heart And face worn new

So over in love with you I don't even care

I don't even care
I don't even care
I don't even care
