

# For The Love

Tracy Lawrence

He takes all this criticism from those who never played the game  
No matter how hard they hit him he keeps on playing through the pain  
When they lose he takes the blame  
Old number nine

For the love they live for the love they die  
No higher calling in this life  
There's nothing they can't rise above  
Cause it's not about rich it's not about poor  
Counting the cost and keeping score  
They do it for the love

I know this cop in Cincinnati  
Born into money and prestige  
He could be living off of Daddy  
But instead he's out there on the beat  
Protecting serving you and me  
Badge forty fifty seven

He's in your heart he's your best friend  
He won't break no he won't bend  
Look around you'll see he's in each of us

We all do it for the love
