

# Till I Was A Daddy Too

Tracy Lawrence

Do you recall when I was six  
I got lost out in the woods and you worried yourself sick  
What about the day I got in my first fight  
Mama she got mad but you swelled up with pride  
I never knew how deep a fathers love could run  
Until I had a son

From watching him learn how to crawl  
To skinned up knees from skateboard falls  
To praying he'd get through football alive  
From hearing his first words spoken  
The first time his heart got broken  
And knowing soon he'll spread his wings and fly  
I guess I didn't know what a Daddy goes thru  
Til I was a Daddy too

Real love the kind that you can't understand  
Until you hold it in your arms and touch it with your hands  
Pure joy the kind that you can only find  
When you live your life for them  
And leave yourself behind  
More and more I'm seeing life go by  
Thru my Daddy's eyes

The fast pace of time goes racing  
From first grade to graduation  
And knowing soon he'll spread his wings and fly  
I guess I didn't know what a Daddy goes through  
Til I was a Daddy too

I guess I didn't know what a Daddy goes through  
Til I was a Daddy too
