

How Will I Know

Trademark

Here I am darling
I'm talking heart to heart
And I'm trying to explain my feelings
Alone here in the dark
Here I am baby
I can't seem to find a clue
I don't know how to say it
All I really want is you
[*]
There were times
We let each other down
The words we said they hurt so deep inside
There were times
When love just passed us by
But still I hope you give us one more try
Tell me
[CHORUS]
How will I know
If you come home again
How long will you take to see
That I'm your man
How will I know
If you come home again

Come home again - Come home again

Come back again - come back again
Here I'm darlling
I hope you understand
That I feel lost without you baby
So come on take my hand
I hardly can remember
God where did I go wrong
Heaven knows that I still love you
Girl I need to kiss you - I'm alone
[(*) & Chorus]

Come home again - come back again

come home again - come home again
