

Don't Be Sad

Traffic

Don't be sad, I just want to see you get through
All I have, is yours if you think it helps you
Good or bad, there's no one can really judge you
You just have, to come to your own conclusion

There is only one who means more than all to me
And through the lady, in a dream I've learned to live with ever
yone

Mother, father, all my friends, have seen me have my day
But now I find that there's no need in trying to run, though it
's been fun

Don't be sad, I just want to see you get through
All I have, is yours if you think it helps you
Good or bad, there's no one can really judge you
You just have, to come to your own conclusion
