## Don't Be Sad

Traffic

Don't be sad, I just want to see you get through All I have, is yours if you think it helps you Good or bad, there's no one can really judge you You just have, to come to your own conclusion

There is only one who means more than all to me And through the lady, in a dream I've learned to live with ever yone

Mother, father, all my friends, have seen me have my day But now I find that there's no need in trying to run, though it 's been fun

Don't be sad, I just want to see you get through All I have, is yours if you think it helps you Good or bad, there's no one can really judge you You just have, to come to your own conclusion
