## **Brick by Brick**

The dust has finally settled down The sun is shining on these pieces that are scattered all aroun d This house was everything we knew It's where we kept our love and every single memory of me and y ou

Every letter, every note Every dress you never wore under your coat thrown away

Brick by brick we can build it from the floor If we hold onto each other we'll be better than before And brick by brick we'll get back to yesterday When I made your body shiver and when you took my breath away You took my breath away

The sky has made it back to blue Everything that's left is telling us the worst of it is through Home has never felt so right, there's nothing in the way There's nothing in between us, knowing where we're going is ins ide

Every letter that I wrote Every dress you never wore under your coat thrown away

Brick by brick we can build it from the floor If we hold on to each other we'll be better than before And brick by brick we'll get back to yesterday When I made your body shiver and when you took my breath away

All the pictures that we've taken and the songs that we have pl ayed They have all kept track and followed back the love that we hav e made Now they're spread out on the surface where we can try to congr egate It's not too late to believe that we can get it all again

Brick by brick we can build it from the floor If we hold onto each other we'll be better than before And brick by brick we'll get back to yesterday When I made your body shiver and when you took my breath away Took my breath away

Brick by brick we'll get back to yesterday When I made your body shiver and when you took my breath away You took my breath away Sponzor: www.srovnavac.cz-šetříme na pojištění!
