It's love To my mind Well I drop myself on the cold cement Hang my head 'cause my woman's bent No lights on but I know that she's home So I ring the bell another forty time The neighbor dog made me lose my mind Now I see her car slide down the road It's love To my mind Yeah Yeah Oh, Oh, Oh, Oh I know how to get back to me I know how to get back to me Now I act as if I just got there From doing important shit somewhere But she don't seem impressed with me at all So I decided as I stood I'm done with this one now for good But I know as soon as I get home And see that I'm all by myself I'm gonna pick up the phone And tell her I would do anything to have her back again 'Cause that's love To my mind Yeah Yeah Oh, Oh, Oh, Oh I know how to get back to me (got to get back to me) I know how to get back to me (got to get back to me) I know how to get back I know how to get back (got to get back to me) I know how to I know how to get back to me Yeah Yeah Yeah Oh, Oh, Oh, Oh

I know how to get back to me (got to get back to me)

I know how to get back to me (got to get back)
