

# You Better Believe

Train

I wish that I had all the answers  
And I could walk you down your road  
For all the times those times you feel like you don't matter  
There's just one thing you gotta know

You better believe, you better believe  
Like my father said to me  
"Just give it some time, look for a sign  
And you'll be just fine"

They say that nothing lasts forever  
They say that good times fade away  
And I know, I know that sometimes it ain't easy  
But I know you'll be okay

One day I'll see you in the future  
You'll have a family of your own  
I will be there, I will be there to be your teacher  
You better believe, you better believe you're not alone

You better believe, you better believe  
Like my father said to me  
"Just give it some time, look for a sign  
And you'll be just fine"

They say that nothing lasts forever  
They say that good times fade away  
And I know, I know that sometimes it ain't easy  
But I know you'll be okay

You better believe  
You better believe  
You better believe no matter where you are  
You better believe  
You better believe  
Even when you don't believe I won't be far

It's true that nothing lasts forever  
We all become a memory  
But I know, I know one day we'll be together  
Together again, you better believe, you better believe

You better believe  
You better believe  
You better believe no matter where you are  
You better believe  
You better believe  
Even when you don't believe I won't be far
