Sorry

Trampled by Turtles

I never meant to hurt you darlin' I figured you would know all this by now But I still think that I should say it

There's more to life than dying early It's new to me so bear with me a while And I promise that I'll do better

When you leave me Let me down easy Won't you?

And you'll be sorry And I'll be sorry back

I never meant to hurt you darlin' Looks that you'll be holding too I won't be there when you're calling

There's more to life than broken windows I know people that are just like you And I promise that I'll do better

When you leave me Let me down easy Won't you?

And you'll be sorry And I'll be sorry back
