

# Don't Go, Don't Stray

Transit

Leave the radio playing all night, all night  
Stumbling to the cadence  
Falling into the rhyme

Don't go, don't stray  
Stay here with me  
And if you need a little fresh air, well  
We can sleep on the fire escape

Don't go, don't stray  
Be here with me  
Just like the birds outside of my window  
We can sleep on the fire escape

And leave the radio playing all night, all night  
Stumbling to the cadence  
Falling into the rhyme  
Leave the radio playing all night, all night  
Reciting the words "you were right"  
I got a full moon for a spotlight

Don't slow, don't sway  
Stay here with me  
I need to hear your thoughts in stereo  
Spill your sorrow, send the rain away

Don't slow, don't sway  
Be here with me  
I want to hear your thoughts in stereo  
Blue tomorrow till the end of days

We'll have the radio playing all night, all night  
Stumbling to the cadence  
Falling into the rhyme  
Leave the radio playing all night, all night  
Reciting the words "you were right"  
I got a full moon for a spotlight  
I got a full moon for a spotlight

And I wish you were here  
But I never want to find you in the dark  
I need to see you  
Like a wild fire through an amber heart

And I wish you were here  
But I never want to find you in the dark  
I need to see you  
I need to see you

Leave the radio playing all night, all night  
Stumbling to the cadence  
Falling into the rhyme  
Leave the radio playing all night, all night  
Reciting the words "you were right"  
I got a full moon for a spotlight

Leave the radio playing all night, all night

Reciting the words "you were right"  
I got a full moon for a spotlight  
I never want to find you in the dark.
