

## Fine By Me

Transit

It's fine by me  
We can walk everywhere like when we were eight years old  
When home was anywhere but home and by ourselves was not alone  
It's fine by me  
We can go anywhere making futures without fear  
Knowing they aren't here, no, they aren't here, well  
They aren't here just yet

We live our lives  
It's more than we can handle  
Everyday we're alive  
It's a gift and it's a gamble

You cut me down just like a knife  
Trust your heart and never hope to die  
Down, down, yeah you'll be just fine  
Trust your heart and never hope to die

It's fine by me  
We can walk everywhere, you can throw my letters into the puddles  
And I will just forget, I'll keep it in my lungs and chest  
It's fine by me  
We can go anywhere, I can take the time to catch my breath  
I'll save mine for a rainy day I hope you're doing the same

We live our lives  
It's more than we can handle  
Everyday we're alive  
It's a gift and it's a gamble

You cut me down just like a knife  
Trust your heart and never hope to die  
Down, down, yeah you'll be just fine  
Trust your heart and never hope to die  
Never hope to die, trust your heart and never hope to die

We can walk everywhere  
It's fine by me  
We can go anywhere  
It's fine by me
