

Fine By Me

Transit

It's fine by me
We can walk everywhere like when we were eight years old
When home was anywhere but home and by ourselves was not alone
It's fine by me
We can go anywhere making futures without fear
Knowing they aren't here, no, they aren't here, well
They aren't here just yet

We live our lives
It's more than we can handle
Everyday we're alive
It's a gift and it's a gamble

You cut me down just like a knife
Trust your heart and never hope to die
Down, down, yeah you'll be just fine
Trust your heart and never hope to die

It's fine by me
We can walk everywhere, you can throw my letters into the puddles
And I will just forget, I'll keep it in my lungs and chest
It's fine by me
We can go anywhere, I can take the time to catch my breath
I'll save mine for a rainy day I hope you're doing the same

We live our lives
It's more than we can handle
Everyday we're alive
It's a gift and it's a gamble

You cut me down just like a knife
Trust your heart and never hope to die
Down, down, yeah you'll be just fine
Trust your heart and never hope to die
Never hope to die, trust your heart and never hope to die

We can walk everywhere
It's fine by me
We can go anywhere
It's fine by me
