

Follow Me

Transit

Abroad adventure with a few close friends
Took an eight hour flight over the Atlantic Ocean
Jetlagged and lovesick for days on end
Wrapped up in the music, we sang and we sang

Follow me, follow me into the night
Why even ask why? Why even ask why?
Follow me, follow me just for the night
Why even ask why? Why don't we just try?
Why even ask why?

Met this beautiful girl, she loved to pretend
And joke about the future we'd never spend
Pulling at my heartstrings, she played and she wins
This is my love song, this is how it ends

Follow me, follow me into the night
Why even ask why? Why even ask why?
Follow me, follow me just for the night
Why even ask why? Why don't we just try?
Why even ask why?

Looking for love like it ever gets easy
Heard you were lonely enough to stay with me
Go if you want to be lovesick and lonely
I'll be waiting on you, I'll be waiting on you

You're holding your drink like it's killing you slowly
Holding a smile like I don't know the story
Go if you want to be lovesick and lonely
I'll be waiting on you, I'll be waiting on you

Diana, your history ain't much a mystery
Buried your worries in bruises and bed sheets
Go if you want to be lovesick and lonely
I'll be waiting on you, come on and tell me the truth

The story unfolds with the lies that you told me
Love is a dream; I'm waking up slowly
Go if you want to be lovesick and lonely
I'll be waiting on you, I'll be waiting til you say goodbye

Follow me, follow me into the night
Why even ask why? Why even ask why?
Follow me, follow me just for the night
Why even ask why? Why don't we just try?
Why even ask why?

Our long distant love turned to long distant friends
As I flew back home alone again
Don't talk about the future cause it's nothing we can spend
This is my love song, this is how it ends
