

Hazy

Transit

It all seems hazy like the summer sun
And I'm just a memory
That floated in on a seacoast wind
Through the fog and the factories

Take me as I am
You come and go just as you please
I lost enough out here alone
I'm hoping someday you forgive me

It's all hazy like the summer sun
And I'm just a memory
Who followed state lines
Down through places
Dreamers forget to leave

You spend enough time on the road
Won't you come back home to me
I lost enough out here alone
I'm hoping someday you forgive me
Someday you'll forgive me

It's all hazy like the summer sun
And I'm just a memory
Who followed state lines down through places
Dreamers forget to leave

Take, take, take me as I am
And you go, go as you please
I lost enough out here alone
Hoping that someday you forgive me
Forgive me

Because you won't find lovers
In the arms of strangers
You won't find peace in places like this
Love is not a tourist
You can't go on like this

It's all hazy like the summer sun
And I'm just a memory
Who followed state lines down through places
Dreamers forget to leave

Take, take, take me as I am
And you go, go as you please
I lost enough out here alone
Hoping that someday you forgive me

Take, take, take me as I am
And you go, go as you please
I lost enough out here alone
Hoping that someday you forgive me.
