

Nothing Lasts Forever

Transit

I drove through the front yard
I parked on the bridge
I saw the coastline like I never did
You know nothing lasts forever
No, nothing lasts forever

I thought that I blocked out December
Until I heard the news
I swore that I left you inside of the glovebox
Next to the other things I never used

I drove through the front yard
I parked on the bridge
I saw the coastline like I never did
I thought nothing lasts forever
No, nothing lasts forever

I drove through the front yard
I parked on the bridge
I saw the coastline like I never did
I thought nothing lasts forever
No, nothing lasts forever

I thought we'd be in this together
Until I heard the news
And now I'm alone with my thoughts and the ocean
I'll stay here forever waiting for you

I drove through the front yard
I parked on the bridge
I saw the coastline like I never did
I thought nothing lasts forever
No, nothing lasts forever

I drove through the front yard
I parked on the bridge
I saw the coastline like I never did
I thought nothing lasts forever
No, nothing lasts forever

Go!

I drove through the front yard
I parked on the bridge
I saw the coastline like I never did
I thought nothing lasts forever
No, nothing lasts forever

I drove through the front yard
I parked on the bridge
I saw the coastline like I never did
I thought nothing lasts forever
No, nothing lasts forever.
