

Pins And Needles

Transit

Walking away from another fight,
I still see those eyes every time I close mine
Trust me, my team tend to hide
When you tend to leave, I love the high
Hold on and hold stack say
No one come collect me
And no, I'm ready to say
Come on and collect me
Hold on and hold stack say
You know I'm ready, you know I'm ready
I'm ready

She say,
I wanna start first day in?
Cover my heart, twilight the shadow
Dancing on, love pins and needles
Dancing on, love pins and needles

I lie awake in the dead of night
I still taste your lips every time
I taste all to find a way, this on my mind
How could you leave all off behind?
And done the whole steady
Say the word: Come collect me
And no, I'm ready so come and get me
Come on, hold steady
You know I'm ready
You know, I'm ready, I'm ready

She say,
I wanna start first day in?
Cover my heart, twilight the shadow
Dancing on, love pins and needles
Dancing on, love pins and needles

I wanna start first day in?
Cover my heart, twilight the shadow
Dancing on, love pins and needles
Dancing on, love pins and needles

Cover my heart, cover my heart we dancing on
Cover my heart, cover my heart we dancing on
Cover my heart, cover my heart we dancing on
Cover my heart, cover my heart we dancing on
Cover my heart, cover my heart

I want the stars to burn like a fournal
Cover my heart, twilight the shadow
Dancing on, love pins and needles
Dancing on, love pins and needles
Dancing on, love pins and needles
Dancing on, love pins and needles
Dancing on, love pins and needles
Dancing on, love pins and needles
