

(I Just Wanna) B With U

Transvision Vamp

You're mine, you're mine, the stars told me
You're mine, you're mine, it's your destiny
It's true, it's true it was meant to be
It's true, it's true, it's your destiny
And for your world my love is free
There's nothing here holding me
'Cept this feeling deep on down, down, down
(I just wanna) B with U
(I just wanna) B with U
(I just wanna) B with U
Baby that's all
Well the authority have got their problems
I always try to be one of them
And I think I'd be happy, to be bad
If you said I was good at it
Please baby, please baby tell me
Was I good at it?
(I just wanna) B with U
(I just wanna) B with U
(I just wanna) B with U
Baby that's all
Please baby, please baby tell me
You know what I mean
Ooh baby the stars told me
You're mine, you're mine
