# If Look Could Kill

**Transvision Vamp**

If looks could kill, I'd never look at you again
If words could hurt I'd never talk to you again
If fate should spill into your life tonight
Everything forever tonight
You know what I'm saying
If looks could kill, I'd never look at you again
I'd never look into your eyes
I'd never look at you again
And then mabey, just for the thrill baby
I may look at other men
– if looks could kill
I got no time for suckers, no time for loons
If the beat don't rock, don't play my tune
You know what I'm saying
You know what I'm saying
If looks could kill, I'd never look at you again
I'd never look into your eyes
I'd never look at you again
And then mabey, just for the thrill baby
I may look at other men
If looks could kill, I'd never look at you again
I'd never look at you again
I'd never look into your eyes
If looks could kill
