

Pressure Times

Transvision Vamp

I won't waste my time, gonna take my time
Gonna use my mind, gonna spend my time - oh yeah
I'm Gonna take my time I won't waste my time - oh yeah
You get pressured by the government
Pushed from your innocence
Pressured by they government
Pressured by the management
You gotta get it right, get it right, gotta, gotta get it right
Pressure times, pressure times
Pressure times, pressure times
- I won't waste my time
As I get older, I get a little bolder
I speak my mind. I don't waste my time
Generate some heat, huh, keep on my feet, yeah
First you get the pressure then you get the pressure drop
First you get the pressure then you get the pressure drop
First you get the pressure then you get the pressure drop
First you get the pressure then you get the pressure drop
You gotta get it right, get it right, gotta, gotta get it right

You get pressured by the government
Pressured by the management
Pressured out of ignorance
Pushed from your innocence
They take you on a joyride
Take you through toy town
Pressured by mind games
Driven into your brain
Coming out the TV, the paper, everything
Get it right, get it right, gotta, gotta get it right
Pressure times
Pressure times
Pressure times
Pressure times
First you get the pressure then you get the pressure drop
First you get the pressure then you get the pressure drop
First you get the pressure then you get the pressure drop
First you get the pressure then you get the pressure drop
I won't waste my time, gonna take my time
Gonna use my mind, gonna spend my time
I won't waste my time
