

See God

Trapped Under Ice

Never brought mommy smiles
This feeling that I'm feeling I've been feeling for a while
It's hard to admit but I got to get it off my chest
I would sleep forever if there's peace in death
And if you see god tell him that I'm still alive
Gave up on all those prayers because they couldn't provide the
Answer to the questions I've been asking since birth
Been searching for the
Truth for years
I can't find peace on this earth
You won't find peace on this earth
