

# Only One in Color

Trapt

I've been searchin all my life I used to be so color blind you  
opened up my eyes  
Do you want to share your dreams, see a different side of me yo  
ur everything I need

[bridge]

I like it when you think out loud  
the things you say when you know  
there is no one else around  
I can dig my own graves now  
but will you smile every time  
I try to crawl my way out

[chorus]

There is no one like you  
and in a world of black and white  
you are the only on in color  
There is no one like you  
into history I slide  
I want you to keep it all uncovered  
you are the only one in color

You know when to set that mood, you can light up any room just  
by the way you move  
the only one who understands what I've given you you've given b  
ack come on and take my hand

[bridge]

[chorus]

you turned an old world upside down  
A wave of calm when I was so tightly wound and so full of doubt  
I'll never tell you that  
two's a crowd I know I can't get through without ever needing y  
ou around

[chorus x2]
