

Imperfect Like A God

Trauma

Conquer in the name of god
Human psycho in the mask of god
Extermination - our law
So we conquer, so we kill - our law

Unperfect like a god

Nobody in this world
Knows everything about the dream
Revelation - our war
The perfect resolution - our law

The shame and misery
Flowing through the mouth of god
Condemnation - our destiny
Proud and free with this gift

The worst nightmare
Rising of the hidden beasts
Recreation - our aim
We know down social law

[Lead: Mister]

In the deepest dream
All the reasonable travelers believe in
Reconstruction - our hope
So we fall and rise again - our hope
