I'm looking at the future, I see it in your face I don't know where you came from, you came from But girl, you can tell me on the way I ain't no Casanova and I'm not spitting u no game Your heart's been broken over and over But I'll make you trust in love again

You know way too many of these same old guys They tell way too many of these same old lies Girl I ain't just anybody, put your faith in me I will make you believe, believe, yeah

I used to be so lonely, this lonely man Felt like a man up on the moon The stars were my directions, directions Leading me straight here to you

You know way too many of these same old guys They tell way too many of these same old lies Girl I ain't just anybody, put your faith in me I will make you believe, believe, yeah

I'm gonna make believe, I'm gonna make believe I'm gonna make believe, I'm gonna make believe

Hello heart, let me in All your cracks, I'm gonna mend Hello heart, let me in I'm gonna make you trust again

You know way too many of these same old guys They tell way too many of these same old lies Girl I ain't just anybody, put your faith in me I will make you believe, believe, yeah

I'm gonna make believe, I'm gonna make believe I'm gonna make believe, I'm gonna make believe

I'm gonna make believe, I'm gonna make believe I'm gonna make believe, I'm gonna make believe
