

# Can't Wait To Meet Ya

Travis Garland

If I was a flight, you would be my destination  
I'm coming to you, I don't need an invitation  
If you were a doctor, then imma be your patient  
Teach me how to love I need a cardi operation  
Imma be your getaway if you will be the driver  
We get in the car we can take it higher  
I could steal your heart, you can steal mine  
And if we get caught, baby I'll do all the time

But I don't even know  
Your name  
I've never even seen  
Your face  
Girl I can't wait to meet ya  
Girl I can't wait to meet ya  
I can't wait to meet ya  
Someday

If I was a mirror, baby you'd be the reflection  
Watch you all the time  
Your the vision of perfection  
I would be the answers, you would be the questions  
Show you how it's done, cuz baby I don't need directions  
Never get enough, I'd develop a condition  
I can't even stop, girl you know your my addiction  
So if there is a cure, baby I don' wanna find it  
And I wont go to rehab

But I don't even know (know)  
Your name (your name)  
I've never even seen  
Your face  
Girl I can't wait to meet ya  
Girl I can't wait to meet ya  
I can't wait to meet ya  
Someday  
(Someday)

But I don't even know (but I don't even know)  
Your name  
I've never even seen (never even seen)  
Your face  
Girl I can't wait to meet ya(I can't wait)  
Girl I can't wait to meet ya (I can't wait)  
I can't wait to meet ya  
Someday

But I don't even know  
Your name  
I've never even seen  
Your face  
Girl I can't wait to meet ya  
Girl I can't wait to meet ya  
I can't wait to meet ya  
Someday

Girl when your closing your eyes girl what ya thinking bout

Baby when your sleeping at night girl what ya thinking bout  
Me and you  
Me and you  
Aye
