

# Dance In The Rain

Travis Garland

Still automatic, supersonic  
Not that shit that you could buy it  
That was me that took you on it  
You beat it when I take it  
God you see, see run this? All the fellas want this  
Now haters see me all on that truck and won't agnology but

But they don't even know me like  
They don't even know me like  
They think that I can handel the storm  
Range and stuning like they dropping hits like left in night  
You know wehn it rains it poors

I see the clouds coming but I'm dancing in rain with you  
No, I'm not leaving you out in the dark on your own  
Until it's gone

I just want you to dance with me  
Baby will you dance with me?  
Baby will you dance with me?  
I just want you to dance with me  
Baby will you dance with me?  
Baby will you dance with me?

Got your back to learn another lesson  
I'mma keep it second guessing  
I had to contrait one two step and I'll be rapping at eight  
Still cool as his mother when they hit the front door  
Everybody dancing out

they don't even know me like  
They don't even know me like  
They think that I can handel the storm  
Range and stuning like they dropping hits like left in night  
You know when it rains it poors

I see the clouds coming but I'm dancing in rain with you  
No, I'm not leaving you out in the dark on your own  
Until it's gone

I just want you to dance with me  
Baby will you dance with me?  
Baby will you dance with me?  
I just want you to dance with me  
Baby will you dance with me?  
Baby will you dance with me?

Dance with me, dance with me, yeah, with me  
Dance with me, dance with me,

I see the clouds coming but I'm dancing in rain with you  
No, I'm not leaving you out in the dark on your own  
Until it's gone

I just want you to dance with me  
Baby will you dance with me?  
Baby will you dance with me?

I just want you to dance with me  
Baby will you dance with me?  
Baby will you dance with me?  
I just want you to dance with me  
Baby will you dance with me?  
Baby will you dance with me?  
I just want you to dance with me  
Baby will you dance with me?  
Baby will you dance with me?

I see the clouds coming but I'm dancing in rain with you  
No, I'm not leaving you out in the dark on your own  
Until it's gone
