

# Let's Get Wasted

Travis Garland

Let's pretend we agree that we're not arguing constantly  
Get along for the night  
Put down the guns put down the knives  
Can we find common grounds  
Cause there's way too much grey around  
If you can't make believe  
There's the door yeah you're free to leave

I'm tired of sitting here talking about nothing  
You say you saw me but it's always something  
I need you to be cool  
Drinks are on me tonight  
Yeah

Let's get wasted in the conversation  
Make our way to strangers take another shot  
Woah woah woah  
Let's get wasted end up on the pavement  
Party like a rockstar til we hear the cops  
Ooh ooh ooh

Got my head in a cloud  
Purple elephants all around  
Grab your booze and chase them down  
Yeah tonight we're gonna run this town

I'm tired of sitting here talking about nothing  
You say you saw me but it's always something  
I need you to be cool  
Drinks are on me tonight  
Yeah

Let's get wasted in the conversation  
Make our way to strangers take another shot  
Woah woah woah  
Let's get wasted  
Let's get wasted end up on the pavement  
Party like a rockstar til we hear the cops  
Ooh ooh ooh

Take a drink and then pass it around  
Cheers to those who won't make it  
Raise a glass and then shout it out  
Everybody get wasted  
Take a drink and then pass it around  
Cheers to those who won't make it  
Raise a glass and then shout it out  
Everybody get wasted

Wasted yeah

Let's get wasted in the conversation  
Make our way to strangers take another shot  
Woah woah woah  
Let's get wasted  
Let's get wasted end up on the pavement  
Party like a rockstar til we hear the cops

Ooh ooh ooh  
Yeah yeah yeah

Let's get wasted in the conversation  
Make our way to strangers take another shot  
Woah woah woah  
Let's get wasted  
Let's get wasted end up on the pavement  
Party like a rockstar til we hear the cops  
Ooh ooh ooh  
Let's get wasted
