

# Never Even Said Goodbye

Travis Garland

It's like I'm lost in a dream  
and I can't wake up  
It's like I'm missing a piece  
but I don't know what.  
It's like I've never even had your love  
and I don't understand  
Why'd you leave me here?  
(why did you leave)  
I just need you here  
(I really need you)  
There's no hope again  
to make up trying to save us.

Why did you go?  
Is it too late for me to fix it?  
Cause you're moving on  
and I don't even understand why  
Because you never even said goodbye  
Oh girl you never even said goodbye  
And I find everytime I close my eyes (Never even said goodbye)  
Find it hard to sleep at night. (Never even said goodbye)

Why'd you leave me here?  
I just need you here.

Why did you go?  
Is it too late for me to fix it?  
Cause you're moving on  
and I don't even understand why  
Because you never even said goodbye  
Oh girl you never even said goodbye  
And I find everytime I close my eyes  
(Never even said goodbye)  
Find it hard to sleep at night.  
Because you never even said goodbye.
