

## Second Try

Travis Garland

Baby I'm not perfect  
I make mistakes  
But I know I can make this right  
If you give me a second try

Baby only God knows what I was thinkin  
When I did those things to you  
Empty that's all that I can feel no emotion  
Can fill the space I used to keep for you

Now I just wanna go back  
Take it all back  
You know I didn't mean it baby  
Don't you hold it against me yeah

And don't just end it like that  
Yeah I messed up but I lost my way  
Swear I'll find the road that leads back to your heart

If I could just rewind  
I'd call when I said I would  
I'd wipe the tears I put there  
I'd stay that time I left you hanging  
If I could turn back time  
To the day that I met you  
I'd never let you get away  
On my second try

Let me try again try again try again  
Give me one more chance one more chance  
Give me a second try

Sorry doesn't even come close to sayin  
How stupid I feel for what I've done  
And it's crazy I can't even ask your forgiveness  
Cause I can't forgive myself for what I've become

And I just wanna go back  
Take it all back you know  
I didn't mean it baby  
Please don't hold it against me yeah

And don't just end it like that  
Yeah I messed up  
But I lost my way  
Swear I'll find the road that leads right to your heart

If I could just rewind  
I'd call when I said I would  
(I would wipe those tears)  
I'd wipe the tears I put there  
I'd stay that time I left you hangin  
(Left you hangin)

If I could turn back time  
To the day that I met you  
I'd never let you get away

On my second try

Let me try again try again try again  
Give me another chance  
Give me one more chance one more chance  
Give me a second try

You never know a good thing  
Till you let it go bad  
Now I finally learned  
To appreciate what I don't have

If I could turn back time  
To the day that I met you  
I'd never let you get away  
On my second try  
I just want you to know  
If you don't give me another shot  
I don't even blame you  
But I can't just go back to loving you from a distance  
I know what you're doing  
Tell me what I have to do  
For you to let me back in  
And I just wanna go back

If I could just rewind  
I'd call when I said I would  
I'd wipe the tears I put there  
(Gotta find the one)  
I'd stay that time I left you hangin'  
(That'll lead back to your heart)

If I could turn back time  
To the day that I met you  
I'd never let you get away  
On my second try

Let me try again try again try again  
And I just wanna go back take it all back  
Give me one more chance one more chance

Let me try again try again try again  
Don't just end it like that end it like that  
Give me one more chance one more chance

Let me try again try again try again  
Give me one more chance one more chance  
I'm not gonna let you get away
