(Pick it up, pick it up, pick pick pick pick it up)
(Pick it up, pick it up, pick pick pick pick it up)
(Pick it up, pick it up, pick pick pick pick it up)

She told me that a kiss could light a fire
The passion in her lips blew me away.
I got into my car and pushed the tires
Speeding through the streets of East LA

Red light don't be so cruel
When I get there please turn green
I ain't gonna slow down my speed
My girl is waiting for me

Oh...

We're so sexy together
When we touch
Hotter than summer weather
That's what's up.
No one else does it better

You know that everybody knows what we got
We're sexy together

(Pick it up, pick it up, pick pick pick pick it up)
(Pick it up, pick it up, pick pick pick pick it up)
(Pick it up, pick it up, pick pick pick pick it up)

They pull the velvet rope as if we're famous
They look at us like we're celebrities
They try to figure out how we attain this
I'm only this fly when you're with me

They were looking at you, but they're also
Looking at me. Cause we got this chemistry
(Cause it aint that hard to see)

We're so sexy together
When we touch
Hotter than summer weather
That's what's up.
No one else does it better

And know that everybody wants what we got.
We're sexy together

Baby girl look at how they're looking at us
Gatherin all around like there's something to see
Just touched down and I heard them say (say)
It's the new Brad and Angelina Jolie
Everytime you're in the hood

And you're looking that gorgeous girl
You make a scene Like you in transformers
You're a rock star They want to be us
And I know this because

They already call us the "IT" couple.
People just stare everytime you walk past
Everybody calling her a head turner
When we are together they call us whiplash

I know how to make a girl sweat just
One look and you give a man a crush.
Baby on our own we are pretty fly
But when w're together no one has swagger like us.

We're so sexy together
When we touch
Hotter than summer weather
That's what's up.
No one else does it better

And know that everybody wants what we got.
Sexy together

We're so sexy together
When we touch
Hotter than summer weather
That's what's up.
No one else does it better

And know that everybody wants what we got.
Sexy together
