

# Stranded

Travis Garland

Wondering without a vision  
You made it your mission  
To rescue my heart  
Was blind before  
Girl, I didn't notice  
You put it in focus  
Right from the start

But now we're going different ways  
You chose this road on your own  
I got my direction from you girl  
You're my star  
And now there's nothing you can say  
To convince you not to leave me alone  
And there's nothing you can say  
To convince you not to leave me alone  
How am I suppose  
To find my way in the dark?  
I'm stuck in the middle of nowhere  
Searching for a way to get home  
Wish I could call but  
We don't even talk anymore  
Feels like I'm stranded  
All on my own  
(Feels like I'm stranded All on my own)  
Stranded (My own)  
Stranded (My own)  
Stranded  
Stranded  
(All on my own)  
Stranded (My own)  
Stranded (My own)  
Stranded  
Stranded  
(Feels like I'm stranded All on my own)

Girl just tell me why are you changing  
Going insane shouldn't bring it along  
It's like you faded away  
And I'm begging you stay  
For I'm holding a stranger  
Here in my arms

Ooh ooh ooh  
Now that you're gone  
I've got to learn  
Make my own way  
I'm moving on  
I'm leaving without you

I'm stuck in the middle of nowhere  
Searching for a way to get home  
Wish I could call but  
We don't even talk anymore  
Feels like I'm stranded  
All on my own  
(Feels like I'm stranded All on my own)

Stranded (My own)  
Stranded (My own)  
Stranded  
Stranded  
(All on my own)  
Stranded (My own)  
Stranded (My own)  
Stranded  
Stranded  
(Feels like I'm stranded All on my own)

Wondering without a vision  
You made it your mission  
To rescue my heart  
Ooh...
