

Dixie Flyer

Travis Tritt

Well, the first thing I remember was the smell of burnin' cinders

And the sound of that old whistle on the wind

I always wondered where the train was goin'

But I never cared at all where it had been

Yeah, the first chance I got, I was gone like a shot

Followin' that old dream of mine

My only desire was to catch that flyer

And ride it to the end of the line

My life is like a Dixie Flyer

She don't ever look back

So pour on the coal, let the good times roll

Till the train runs out of track

Full speed ahead, no, I ain't stoppin' yet

I feel that drivin' wheel down in my soul

I been some places where the train don't stop

Some places where the train don't even go

Yeah, some are satisfied just to sit on the side

And watch as the trains roll by

But that ain't me, there's just too much to see

Gonna roll until the day that I die

My life is like a Dixie Flyer

She don't ever look back

So pour on the coal, let the good times roll

Till the train runs out of track

Till the train runs out of track

Yeah, till the train runs out of track
