

If I Were You

Travis Tritt

You've got it made, you've got real love
Something you don't find every day
Someone to trust, someone to lean on
Something I would hold on to, if I were you

You've got it made, you've got no one
You don't have those stings to tie you down
You come and go free as the wind blows
And I wouldn't settle down too soon, if I were you

If I were you I'd be satisfied
Oh, I'm sure the grass is greener on the other side
If I were you, I'd stay by her side (I'd be running wild)
I would never leave her
That's what I would do
If I were you

If I were you I'd be satisfied
Oh, I'm sure the grass is greener on the other side
If I were you would I rather be (would I rather be)
Someone just like me
I wouldn't change a single thing
If I were you.
