

# Looking Out For Number One

Travis Tritt

No matter what I do, I can't make you happy  
Though I go to great lengths to do your will  
If you say hurry, girl, I make it snappy  
Trying hard to keep your wishes filled

But I'm getting tired and feeling real discouraged  
From being pressure underneath your thumb  
So here's a message you can give your mama  
Starting now, I'm looking out for number one

Lord, everyone around me, I've tried so hard to please  
Till the only one unhappy, feeling broken down is me  
But things are gonna change with each new setting sun  
Starting now, I'm looking out for number one  
Get along woh  
Ho yeah

It's getting hard to face my mornin' mirror  
There's a stranger in there, staring back at me  
He tells me every day it's getting clearer  
Son, you're not the man, you used to be

Yea it's time to get this monkey off my shoulder  
And quit worrying about the things that you want done  
I'm gonna start the fire that you have smoldered  
'Cause starting now, I'm looking out for number one

Lord everyone around me, I've tried so hard to please  
Till the only one unhappy, feeling broken down is me  
But things are gonna change with each new setting sun  
Starting now, I'm looking out for number one  
Yea starting now, I'm looking out for number one

Yea number one, oh number one, ho ho ho hey yea  
Am looking out for  
Looking out for number one  
Ooh looking out for me  
Number one, number one, number one
