

Too Far To Turn Around

Travis Tritt

Let's set long stretch of highway from Tulsa to Tennessee
You know I had to do it my way
It may you've got the best of me
Sometimes at midnight I hear a voice
It echoes in my head, says that I still have a choice

I could get right, get baptized
Tomorrow I could probably have a pretty good life
But tonight I don't think I'll slow these horses down
There's a full moon, I hear the wolf howl
And one more drink will put me on the ground
But tonight I've gone too far to turn around

I should have listened to my Mama
All I know is to have one more try
Here's your solidest road to comment
And it feels would just fight
I can't hide and I can't run
I can still see the smoke from barrel of the gun
What's gone is gone, what's done is done

Yeah, I could get right, get baptized
Tomorrow I could probably have a pretty good life
But tonight I don't think I'll slow these horses down
There's a full moon, I hear the wolf howl
And one more drink will put me on the ground
But tonight I've gone too far to turn around

Is there a heaven or a hell?
Oh, only time will tell
Yeah, yeah

There's a full moon, I hear the wolf howl
And one more drink will put me on the ground
But tonight I've gone too far
Tonight I've gone too far
Tonight I've gone too far to turn around
