

# We've Had It All

Travis Tritt

There ain't a road  
That we ain't traveled  
Good times and bad  
Both great and small  
And when it seemed  
It all would all come unraveled  
We held each other  
And we stood tall

And all my dreams  
Are still about you  
You're still the answer  
I need when I call  
While some may seem  
In life that they've had nothing  
You and I girl  
We've had it all

Never imagined  
When I first met you  
That our love  
Would last so long  
The fire still burns  
Each time I touch you  
The strength inside you  
Has made me strong

We've let nothing come between us  
We've stood the cold hard test of time  
Vows we've made and never broken  
Ohh 'cause I've cherished yours  
You've cherished mine  
I can't remember  
My life without you  
Our hearts together  
Have made us whole  
When we complete  
Our final journey  
I'll have your spirit  
You'll have my soul  
Cause you and I girl  
We've had it all
