

Wishful Thinking

Travis Tritt

When you told me you were leaving
Girl I didn't believe a word
'Cause to think that you'd walk out on me
Just sounded too absurd
I'd like to change the things I did
That tore our love apart
But that's just wishful thinking on my part

Well I'm hoping and I'm praying
You'll give me one more try
'Cause it's an awful price I'm paying
With the tear drops that I've cried
I guess I should have listened
If I had only been that smart
But that's just wishful thinking on my part

I found out it's the little things
That made our house a home
You'd be surprised how much I've learned
Every day since you've been gone
But I wished I'd learned that lesson
Before it broke my heart
But that's just wishful thinking on my part

Well that's just wishful thinking on my part
