Before You Were Young

Travis

In the days before you were young
We used to sit in the morning sun
We used to turn the radio on
What happened?
We'd see our lies in the eyes of fate
And take our cradles to the grave
But even then we're never saved
From danger

And if you ever leave me come
I will be there waiting
Waiting for you know I will
I love you for ever
I'll never say never

But I've only got two hands
And I'll never learn to dance
I'll never get a second chance
Whatever
I'll take the breath away from your sighs
And wipe the tears away from your eyes
And hope the fire never dies
Inside you

And if you ever leave me come
I will be there waiting
Waiting for you know I will
I love you
I love you
I love you...

In the days before you were young
We used to sit in the morning sun
We used to turn the radio on
What happened?
