

# Peace The Fuck Out

Travis

Now I don't know that your tie is straight  
Your words are crooked and you're gonna pay  
In ten years time they're gonna say  
That this was the moment when you threw it away

And it's all wrong, handbags at dawn  
And turn the radio off to hear a song  
Oh please don't give up  
You have a voice, don't lose it  
You have a choice, so choose it  
You have a brain, so use it  
The time has come to  
Peace the fuck out

Now I don't know what you're talking about  
There's too much shit pouring out of your mouth  
The time is up, the secret's out  
The truth's gonna catch you going south

But it's all wrong, handbags at dawn  
And turn the radio off to hear a song  
Oh please don't give up  
You have a voice, so use it

Yeah but it's all wrong, handbags at dawn  
And turn the radio off to hear a song  
Oh please don't give up  
You have a voice, don't lose it  
You have a choice, so choose it  
You have a brain, so use it  
The time has come to  
Peace the fuck out
