

Perfect Heaven Space

Travis

In my perfect heaven space
There's a picture of you
To think of all the time I've wasted
Not looking at you

Answering the question
Before it's been asked
The answer's in the question
I hope you don't ask

In my perfect heaven space
There's an answer for you
And on my heart I wear a sleeve
That you knitted from me
And you just wanna pull that thread
And unravel me

Answering the question
Before it's been asked
The answer's in the question
I hope you don't ask

On my heart I wear a sleeve
That you knitted from me

In my perfect heaven space
There's a memory of you
To think of all the ghosts I faced
Just remembering you

Answering the question
Before it's been asked
The answer's in the question
I hope you don't ask

In my perfect heaven space
There's an answer for you
