

The Line Is Fine

Travis

Look at me I'm so disgusting
I will never find another
Quite like you
You make me blue
With the things you do
Look at you you're so familiar
We could be so cool together
All the time
Could all be fine
We're on the line
The line is fine
Open up ma window
The line is fine
Standing on the ledge
Well I don't look down
Looking at the people
Well they all look fine
It's not just life or death
Yesterday we talked together
But tonight it's just the weather
Chillin' me
What's the point in silly talking
We could get there quicker walking
Down the line
Could all be fine
But we're on the line
The line is fine
[Chorus]
But staring at the faces
Standing in a row
Thinking of all the places
That they have yet to go/They don't know
